# LONAP EIX-WG Update

RIPE59, Lisbon

8th October 2009

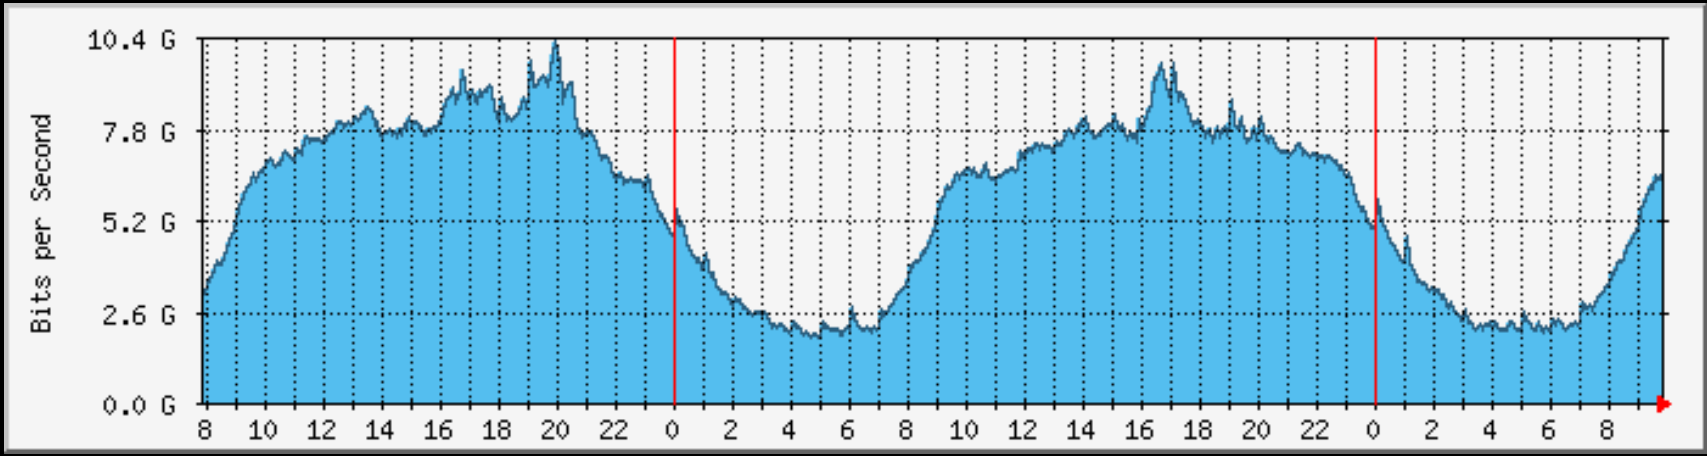
Will Hargrave

Andy Davidson

LONAP
London Access Point

# Brief Introduction

- Neutral, Not-for-profit, member owned
- London Docklands region
- 4 sites (for now)
- Cisco 6500 based (for now)
- ~100 connected ASN



# Work plan since RIPE58

- Technology:
  - Route Servers (2, diverse)
  - Understanding current platform limits, define scope for service refresh.
- Commercial
  - Dense 10GE upgrade roadmap (cheaper 10GE ports)
  - Add further sites (local ones)

LONAP
London Access Point

# We want to talk to...

...IXPs, to pool thoughts on dense 10GE options

... IXPs, to collaborate further on IXP route-server advancement

... Networks who peer in London but not at LONAP (you really should)

# Membership info

- Email sales@lonap.net for information.

- Members AGM and Social to be announced shortly.
- Interested parties welcome to attend social.
