Refocussing TT-WG

RIPE59, 7 October 2009

History

- Test Traffic Measurements service
  - Conceived 1997
  - Full service since 1999
- TT BoF
  - RIPE 30 (May 1998) – Data disclosure
  - RIPE 31 (Sep 1998) – Project status
- TT-WG
  - RIPE 32 (Jan 1999) – Network update
  - RIPE 55 (October 2007) - Ian Meikle becomes co-chair
  - Onwards to RIPE 59 (Oct 2009)

More history

- Charter:
  - Formed to discuss RIPE NCC TTM service
  - 'Other performance measuring techniques and devices' also in scope
  - **Not** about comparing ISP performance for marketing purposes
- Agenda topics
  - TTM operations
  - TTM developments
  - … some other things recently

What other things?

- Other measurement projects (CAIDA, etc)

- IETF IPPM developments

- DNSMON

- Multicast Monitoring

- Consumer Broadband Monitoring (CBM)

- Time Stamp Counter (TSC) clock

Broader focus

- Forum for NCC and RIPE community, and beyond

- Collaborate on: Data, Tools, Analysis

- Focus: Monitoring, Diagnosis, Forecasting

- Still **not** about ISP comparison for marketing

Do you support this?

Name change

- Measurement, Analysis, Tools - MAT-wg

- Internet Measurement - IM-wg

- Better ideas?

Questions?

Next steps

- Closing Plenary

- Discussion on mailing list

- WG re-launch at RIPE60
